About the MEDA project

The MEDA project **is based at the Medical Faculty of the University of Augsburg, More information about the project can be found here.**

MEDA is an acronym for: "mHealth: ethical, legal and social aspects in the technological age." It is the name of our interdisciplinary research team, funded by the German Ministry of Research and Education (BMBF). Our overall goal is a thorough analysis of ethical, legal and social aspects of such technologies. Different academic disciplines are involved: Philosophy, applied ethics, sociology, law, medicine, public health.

The team
